We recently brought Christina in to speak at our Edmond Chamber's Women's Leadership Conference and cannot say enough about how pleased we were with our choice to have her as the key-note speaker. Christina is charismatic and just an overall encouraging speaker that did a wonderful job speaking to and motivating our women in business. More than that, I and the rest of our staff agree, that she is one of those people that has a presence that pulls others toward her and brings out the best in them. I fully recommend Christina for any motivational speaking engagement. She was easy to work with and I sincerely enjoyed the time that I got to spend with her in prep for the event. I am confident that everyone would appreciate her talent and wonderful personality as much as we did.

Let's start with the word phenomenal. I can't think of a better way to describe the caliber of talent that we witnessed today. There are not too many people that could command the attention of more than 50 high strung busy small business professionals. Christina was hands down the best speaker we've seen here at The Northern Virginia Business Referral Round Table and leaves with the glowing recommendation that is backed by all of our members. She has really set a new bar with great illustrations, riveting stories and quite a few humorous moments that we'll be laughing about for months. If any of you get the chance to hire do it quickly, while you can. This one is on the fast track :-)!!!

We are so grateful for your time and willingness to give such a great presentation at TechShop last night. You were fantastic! I don't think it could have been any better, and I loved the way you opened and closed with 'the greatest...' Participants - and organizers- came away armed and inspired.
